

Competitor Information for NSW Slalom

Racing in the afternoon

The SIs show 1pm briefing and a 2pm start

After sailing

We can access the Palm Beach Club for “a chat”. It’s a short walk.

Protest time is going to be as short as it can reasonably be made so that presentation can happen before people drift away; please stay!

Dinner at PBC

To gauge numbers, please message Jervis (0449 603 854) if you are planning to have dinner at PBC (with something like 1 ticket or 2 tickets). We will sort out payment later.

Parking Area

On arrival look out / ask for Dave Fisher who will have parking passes and can direct you to parking areas.

Rigging Area

See diagram on next page.

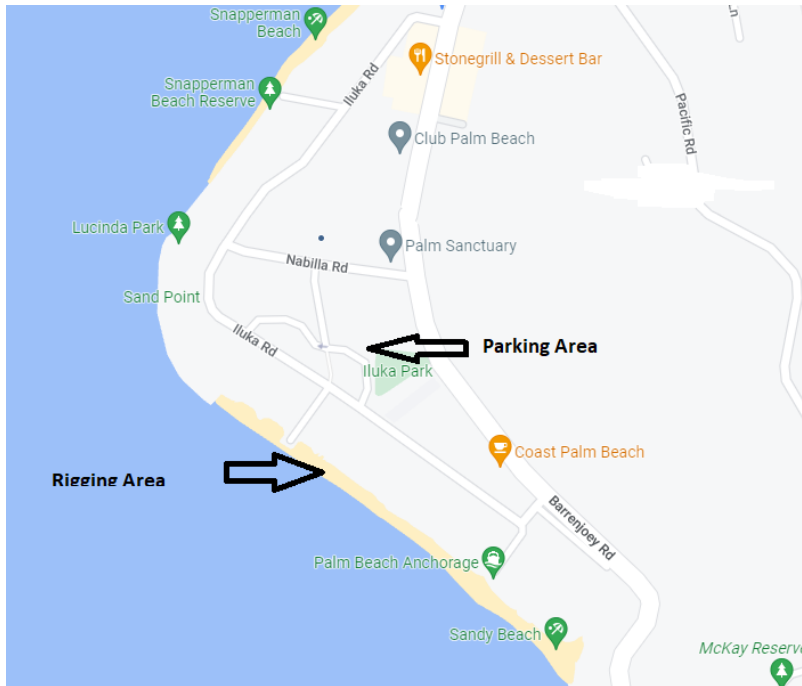

Keep things tidy please.

RPAYC WASZPs

Are arriving by water (see plan at the end of this doc) - we will get there!

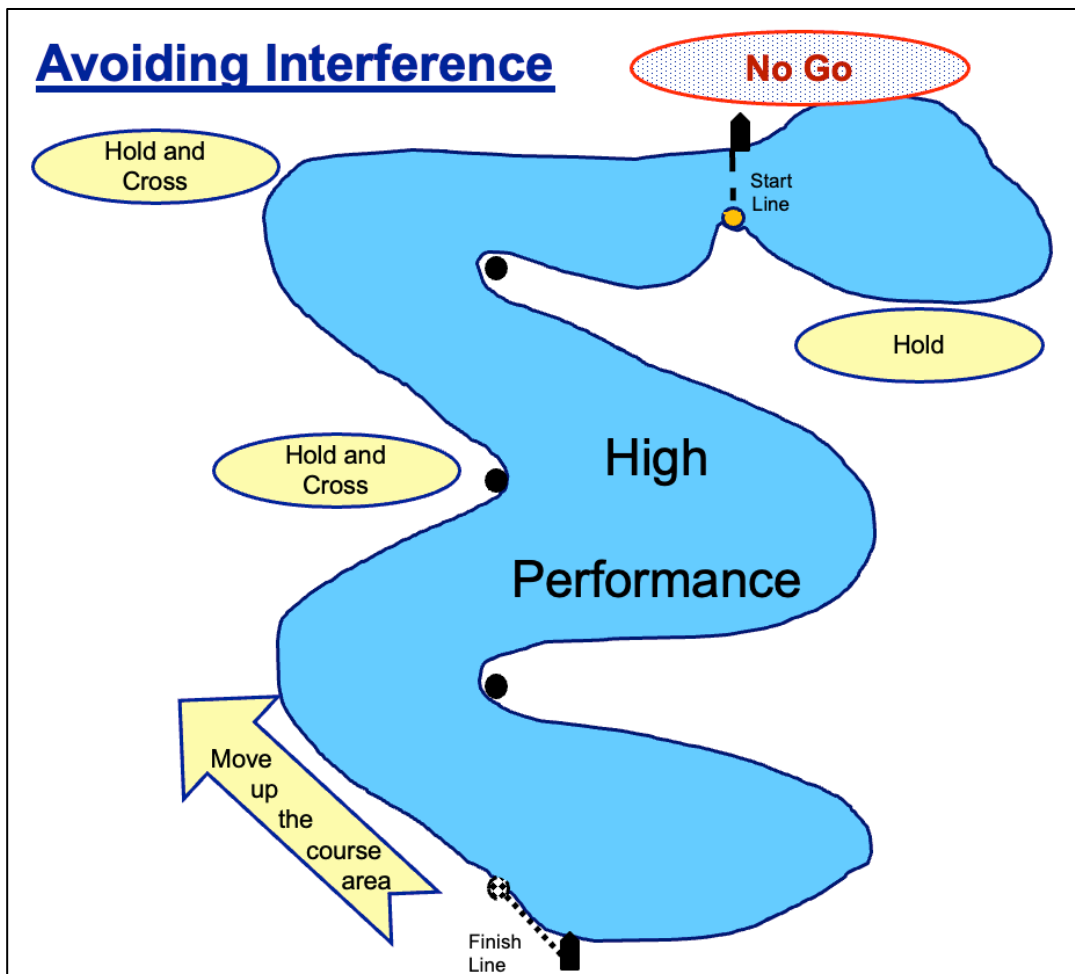

ELECTRICAL POWER LINES – AVOID!!!

Before raising masts avoid low overhead electrical power lines. A mast near or in contact with an electrical power line can cause serious injury or death to people on or touching the boat!

While afloat; be considerate to other competitors...

- After finishing, make your way up the left side of the course and cross the course so as to not interfere
- Do not sail or hover above the start area

Plan for RPAYC competitors

Generally; in and out of PBSC by water both days

Applies to; Chris, (Daniel – TBC), Gary, Louis, Will, Steph, Marcus and Jervis... (Belle is doing Sunday only and working to a different plan)

Saturday

RPA WASZPs, RIBs, marks and people need to be at PBSC about 11.30 for a 12 briefing.

Proposal is to rig and sail (if wind) or tow with RIBs (if not). Either way, need to allow an hour. So, arrive and rig at 10 to leave at 10.30.

Non-sailing gear needs to go on RIBs (together with a number of marks) including:

- Dolly
- Covers; pack up small and tight with a label
- Personal kit; clothes, food, etc.

Boats will stay at PBSC (it's a beach!) overnight and we will RIB back to RPA.

Sunday

RIB to PBSC for 12 briefing; meet at 11.15 with personal / sailing kit.

After racing; the SIs have the skinniest possible protest time so the request is that we all go ashore and wing down in the water / sand for the presso.

We need to get dollies and covers etc. back on the RIBs.

After presso, we will have a (informal) Le Mans style race from the beach to the Pole at the RMYC.
